Envysion's Managed Video as a Service (MVaaS) enables multi-unit operators to easily leverage remote video to gain valuable business insights that will improve operations and deliver demonstrated 10-15% profitability improvements. Our highly scalable and easy to manage MVaaS platform puts the power of video into the hands of a customer's entire organization, reaching across departments to 1000s of users without straining its IT department or network. By integrating video with business systems such as Point of Sale, Envysion provides a robust set of exception reporting, alerting and search capabilities that enable users to quickly review video associated with important events.
