MBM is a privately held, family owned company that was established in 1947 who still serves our very first, second, third, and fourth customers. We are proud to have earned that loyalty through consistent value added services at competitive prices. We are the nation's largest systems and family owned distributor, offering over 17,000 quality food products to over 14,000 customers from 32 distribution centers nationwide. We are pleased to service the needs of Carl's Jr today and strive to continue setting the standards for excellence in the future.
