POWERVER comes to the rescue with a complete family of power conditioning and uninterruptible power solutions. For more than 25 years, POWERVER solutions have proven themselves capable of taking the worst that the electrical supply can throw at them. We've continuously safeguarded retail POS systems in restaurants, hotels, stadiums, theaters, general retail, and grocery stores. To help save even more money, POWERVER offers Ground Guard technology, which eliminates the need for costly and hard to manage dedicated/isolated electrical circuits, in a complete family of Ground Guard power conditioners and uninterruptible power managers. Contact POWERVER today and find out why we're the number one choice in power protection for retail POS applications.
